The County bill and nothing but th County bill was the order of Yesterdo will be the order of today, and at the present rate of progress the order of the day until the close of the session.

Over the first few sections the wrang-

Had Archie Gilfilian been present the day would have been saved but the honorable representations absented himself the entire afternoon. Apparently the Independents were not eager to go on record as voting for one county for Oahu.

He also gave notice of his intention to bring in a bill to prevent any citizen from holding more than two offices at one time.

Gilfillan gave notice of an act to set aside \$10,000 for the use of Delegate Wilcox at Washington, the same to be used as a sort of incidental expense fund.

The County bill was evidently intended to be taken up by the House a majority of 24-4 voting against its post-Emmeluth concurred that it would be

# FEDERAL JURY Down Again

A number of sitnesses whose testiof the United States against Frank O. Sudergree and Nelson Stuart, charged with assault upon the high seas, have been impresented by order of the United States District Court, to prevent their eaving the Territory before the trial of said cases

The Grand Jury yesterday investigated the matter and it reports as follows: The United States Grand Jury in ession beg leave to call the attention of the Honorable Court to the method employed by the United States Marshal the detention of witnesses, and other persons pending their examination in this Court.

Your jury upon careful examination find that at the present time the method employed to secure the presence of the witnesses and other persons who may be required in the United States court and may be unable to provide bonds for their appearance, is to commit them to the care of the High Sheriff of the Ter ritory, who places them in the Terri-torial penitentiary, under the same contorial penitentiary, under the same conditions and regulations as the prisoners Your Grand Jury are instructed that this is a violation of United States law governing the detention of witnesses

Your jury find that the persons held to appear in this United States Court are treated while in prison the same J. A. We andless. as those under sentence for the worst of crimes (excepting only that they are poratinot put to hard labor); they are obliged to submit to the same prison regula-tions and fare, and from the evidence of many witnesses and from a sample breakfast produced before your jury, w find that the rations supplied to the prisoners are not of such quantity or quality as these men are entitled to at he hands of those who hold them in confinement for no fault of their own. Your jury feel that do place these persons under the same rigorous discipline as that adopted for convicts, to require these persons to mingle with those held for the worst of crimes, to give these persons no favors not granted to conlets, is an outrage upon the right of innocent American citizens and should not be permitted by any United States authority. We cannot hold any United States officer as free from censure who permits this condition to exist without making some effort to remedy the wrong and much more is such officer censurable who admits that he does not know where these persons are detained 2.
